# 1 Developing the Internal Audit Strategy

This document sets out the approach we have taken to develop your internal audit strategy for 2017/18 – 2019/20 and the annual plan for 2018/19.

## 1.1 Role of Internal Audit

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

*Definition of Internal Audit: Chartered Institute of Internal Auditors.*

In line with the requirements of the Public Sector Internal Audit Standards (PSIAS), we plan and perform our internal audit work with a view to reviewing and evaluating the risk management, control and governance arrangements that the Council has in place, focusing in particular on how these arrangements help the organisation to achieve its objectives. This involves undertaking a risk-based plan of work, agreed with management and approved by the Standards & Audit Committee. Our plan is developed to enable us to provide an opinion at year end, which may also be used by the Council to support its Annual Governance Statement.

## 1.2 Factors influencing Internal Audit coverage

The organisation's objectives are the starting point in the development of the audit strategy.

Appendix A reflects the range of potential issues that may affect the Council, some of which are included on the risk register. These were used to focus our discussions with management regarding assurance priorities and to determine where internal audit input would be most beneficial.

In preparing the strategy and the annual internal audit plan, in Jan/Feb 2018 we met with and attended the DMT's for the following:

- Environment & Place;
- Strategy, Communications & Customer Services;
- Adults, Housing & Health; and
- HR, OD and Organisational Development.

In addition, meetings were also held with the following senior management:

- Director of Children's Services;
- Director of Finance & IT;
- Director of Commercial Services;
- Head of Children's Social Care;
- Head of Adult Services;
- Head of Housing;
- Head of ICT;

- Operational Lead for Revenues & Benefits; and
- Corporate Procurement, Strategy & Delivery Manager.

The plan was then presented and discussed at Directors Board.

The plan for 2018/19 represents the 2<sup>nd</sup> year of the Strategy. Further discussions will be held with senior management during the year to ensure current priorities are being addressed.

The key areas / factors are summarised below.

### Key areas discussed and their impact on the 2018/19 internal audit plan

- 1 We have agreed to carry out follow up visits to independently provide assurance that high level recommendations are implemented in line with target dates for reports issued in 2018/19.
- 2 The continued emphasis on achieving savings including shared service or joint working arrangements with other local authorities, income generation and more effective and efficient working practices are reflected in a number of areas within the plan.
- 3 New and changing legislation, particularly around Children's Services, Adults, Health & Commissioning and Housing have been discussed and resulted in an increased programme of reviews in these service areas.

The strategy is set out at Appendix B, with the detailed internal audit plan for 2018/19 set out at Appendix C.

As well as assignments designed to provide assurance or advisory input around specific risks, the strategy includes:

- Planned assurance on areas of activity such as the core financial systems;
- A contingency allocation, which will only be utilised should the need arise and which will be subject to prior approval by the Chief Internal Auditor and/or Director of Finance & IT and reported to the Standards & Audit Committee;
- Time to follow up previous recommendations and actions to provide the Standards & Audit Committee with assurance on the actions taken by management to address previous internal audit recommendations. High level recommendations will require further testing as they reach their implementation date. For medium and low level recommendations, we will place reliance on management responses but will follow-up as part of the next review of the service; and
- Audit management, which is used for quality control, preparation of the 3 year Strategy & Annual Plan, Annual Governance Statement, client meetings, External Audit liaison, preparation of the Chief Internal Auditor's Annual Report and attendance at Standards & Audit Committee.

## 2 Assurance Resources

### 2.1 Your Internal Audit Team

Your internal audit team is led by Gary Clifford as Chief Internal Auditor.

We are not aware of any relationships that may affect the independence and objectivity of the team, and which are required to be disclosed under auditing standards.

### 2.2 Working with other assurance providers

We intend to meet with the External Auditor to avoid duplication of coverage between Internal and External Audit. This will also ensure that External Audit can continue to place their planned level of reliance on our coverage of financial controls.

The Standards & Audit Committee is reminded that internal audit is only one source of assurance. Through our plan we do not seek to cover all risks and processes. However, where we can, we will also seek to work closely with other assurance providers to ensure that duplication is minimised and a suitable breadth of assurance can be provided.

### 2.3 Considerations for the Standards & Audit Committee

- Does the Internal Audit Strategy 2017/18 to 2019/20 (Appendix B) cover the organisation's key risks as they are recognised by the Standards & Audit Committee?
- Does the internal audit plan for 2018/19 (Appendix C) reflect the areas that the Standards & Audit Committee believes should be covered as priority?
- Is the Standards & Audit Committee satisfied that sufficient assurances are being received to monitor the organisation's risk profile effectively, including any emerging issues/key risks not included in the strategy or annual plan?
