

QUESTIONS FROM MEMBERS OF THE PUBLIC

There are 3 questions from members of the public.

1. From Mr Atkins to Councillor Johnson

I understand as part of the Council's housing allocation process Thurrock Council uses NowMedical to assess tenants who may have an extra medical need. Can you let me know how this private contractor can override professional medical consultants and GPs reports who may see their patients on a more frequent basis?

2. From Mr Perrin to Councillor Gledhill

The Leader of the Thurrock Independents Party has recently made public six tests he insists must be met by the Conservative Administration running Thurrock Council regarding the building of 32,000 new homes in Thurrock. In the first of the six tests he says he expects the Council to negotiate with the Government to attempt to reduce the figure substantially. He also says other Councils across the country have already secured massive reductions so far. Councillor Gledhill are you inclined to meet with Councillor Spillman's expectations?

3. From Mr Healy to Councillor Halden

There has been much disquiet in the local media recently over the proposed transfer of council land currently leased by Thurrock Rugby Club to South West Essex community Education Trust for a much needed secondary school. When and with whom at Thurrock Rugby Club did Thurrock Council consult on this matter please?
