

Appendix 1 – Current Senior Manager Pay Scales

Senior officer pay bands have 3 pay points. They are a:

- **lower point** for a post-holder with sufficient competence or experience but with some development needs – this is expected to apply to some appointments at the time of recruitment.
- **median point** for a fully competent and appropriately experienced or qualified post-holder – this is expected to apply to most appointments.
- **higher point** for an exceptional post-holder – the difference between the median and higher point will be paid only as an additional non-consolidated payment for 'exceptional' performance.
