## **Executive Summary**

This covering report provides information on the outcomes of the recent Ofsted Inspection, the recommendations from the inspection and draft Action Plan to address the recommendations.

### **1. Recommendations**

- 1.1 That Children's Overview and Scrutiny note the outcomes of the recent Ofsted Inspection, recommendations and draft action plan to address the recommendations; and**
- 1.2 That the Board receive assurance that action plan will deliver the required improvement.**

### **2. Introduction and Background**

- 2.1 All local authorities in England are inspected under the Single Inspection Framework (SIF) within a three-year period. The Children's Safeguarding Board is inspected at the same time. The Ofsted inspection of services for children in need of help and protection, children looked after and care leavers took place between 22.2.16 – 17.3.16. The full report of the inspection is attached to this report as Appendix 1.
- 2.3 In response to the recommendations of the Ofsted Report the department has drafted a detailed action plan. The action plan is attached to this report as Appendix 2.

### **3. Issues, Options and Analysis of Options**

- 3.1 Services to children, young people and families in Thurrock were judged to 'Require Improvement' by Ofsted. This means that the service has fallen back from the previous judgement of 'Good' in 2012. The inspectors stated in their report that 'children and young people were found to be safe in Thurrock during this inspection, with none identified who were at immediate risk of significant harm without plans and services being in place to reduce these risks and to meet their needs'. No individual cases of concern were drawn to the attention of managers during the inspection.
- 3.2 Ofsted has made 16 recommendations in relation to practice improvements that are required in Thurrock. The 16 recommendations can be found at page 7 & 8 of the Ofsted Report. Key areas of concern included:
- The instability of the social care workforce. The service was dependent on a high proportion of agency social workers, although it was acknowledged that a range of creative ideas had been implemented to improve recruitment;
  - The service for children looked after was not consistent and too many children became looked after on an emergency basis;
  - More needed to be done to increase the number of in-house foster carers as too many children and young people were placed out of the borough;
  - Management oversight needed to be improved and frontline staff had to be supervised regularly to improve the quality of practice;
  - The organisation's use of management information and quality assurance was poor and this impedes improvement; and
  - Training for all social workers to ensure permanence work with children starts earlier and that delay is avoided.
- 3.3 A one page summary of the report for children and young people can be found at page 9 of the Ofsted Report.
- 3.4 The local authority is required to prepare and publish a written statement of the action it intends to take in response to the report. It should send a copy of this to Ofsted within 70 working days of receiving the final report. A detailed action plan has been completed by the department and submitted to Ofsted by the deadline on 31 August. The plan was quality assured by the regional Ofsted Inspector and the Inspector who lead the inspection before submission.
- 3.5 An improvement Board has been established to ensure that all of the recommendations and other areas for improvement have been implemented. The Board is chaired by the Corporate Director of Children's Services. The Portfolio Holders for Children and Adults and Education and Health will provide an additional layer of oversight and challenge through by monitoring progress against the action plan on a monthly basis.

3.6 Ofsted is currently consulting on a new inspection framework where it is proposed that those authorities who were judged Requires Improvement will receive another inspection within three years. In addition, it is anticipated that new modular inspections will be undertaken in the next year. These inspections are carried out over 2-3 days to test whether authorities are making the requisite progress with their improvement plans. Furthermore, social care departments will be expected to submit an annual self- evaluation to Ofsted which must evidence improvement. While this is discretionary, failure to do so could trigger a full inspection of the service.

## **Community Development and Equalities Manager**

The local authority and its partners must ensure that a range of services and provision is in place to protect children from all backgrounds.
