Shaping the Council 2015-16 and beyond: Savings Business Case

Business Case Title	Equipment and Assistive Technology				
Revision No:	1 Date: 04/07/14				
Lead Director	Roger Harris, Director of Adults Health and Commissioning				
Lead HOS	Les Billingham, Head of Adults				
Critical friend/Exec Bd					
Business Case Author	Tania Sitch				

Section 1: Summary

Savings Proposal

Assistive Technology - Adult Social Care is currently funding £39k for AT practitioner we are reviewing use of this post

Thurrock Council as part of the Multi Agency Management Board purchases equipment through Essex Equipment Store (with Essex County Council leading) has negotiated a new agreement which will produce savings. Assumptions are this will lead to £60k - savings

Strategic rationale

It must be recognised demand on equipment has grown as this is seen as a preventative measure that will generate savings in the longer term. More people are living at home with complex needs and this will create a growth in demand for equipment.

Assistive Technology is one of a number of preventative services. It aims to keep people at home, reduce admissions to hospital and residential care and reduce reliance on services. Demand has increased by15% (growth in this area was encouraged as a preventative measure) and this has increased spend.

Approximate Cost Savings

OT Equipment contract - £60k

Assistive Technology - £40k

Timescales

Activit	ty	Timescale
1.	Essex County Council new agreement being entered into which will produce savings. Current assumption £60k - £75k savings	Implementation during 2014
2.	Review funding of AT post (funded through BCF) potential £39 k but part of Fieldwork restructure paper)	As part of whole ASC Fieldwork review by end of June 2014

Shaping the Council 2015-16 and beyond Savings Business Case

Integrated Community Equipment Service project and shared service agreement with Essex County Council.

Risk management approach to ensure critical equipment provision prioritised

Self assessment to promote / improve access to equipment.

Increase information and advice for self funding options

Explore income generation opportunities (delivery of moving and handling training / approved assessor training / reablement training)

Section 2: Finance, savings and costs

	Financial summary							
	General Fund budget 2014-15							
	Staff £000s	Premises / Transport £000s	Supplies/ Services £000s	Direct Payments £000s	Third Party Payments £000s	Total Expenditure Gross £000s	Income £000s	Net Expenditure £000s
2014/15			859					859

Staff Related savings			
Current number of posts (FTE and 1 1			
Number of posts to be deleted (FTE and headcount)	1		
Amount of salary saving (inc on-costs)	£40K		

Non- Staff Related savings			
Premises and buildings (inc utilities) 0			
Transport	0		
Supplies and services	£60k ICES		
Other (please specify)	0		

Third Party Related savings/income				
Commissioning/contracts	0			
Charges to the HRA/DSG/PHG (NB can be negative)	0			
Increase fees & charges	0			
Grants/additional funding streams	0			
Other (please specify)	0			

Benefits - non financial

Asset Based Community Development / Self serve / promote independence / improve speed of access to support services / reduce face to face assessments and more self serve / encourage community prosperity / choice and control

Costs & Resources to deliver the savings			
Direct costs	0		
Redundancy costs	0		
Accommodation costs	0		
Procurement and/or Legal costs	0		
Other HR costs	0		
Other (please specify)			

Section 3: Impact/Consequences of proposal – not covered in financial section

Impact on Corporate Priorities/objectives/ performance targets/standards

Give details regarding any/all that are relevant – Risk/mitigation is next section

Priority 1. Create a great place for learning and opportunity			
Priority 2. Encourage and promote job creation and economic prosperity	Self Assessment promotes local business / stimulate market in equipment / Asset Based Community Development / engage in ULO		
Priority 3. Build pride, responsibility and respect to create safer communities	Support Asset Based Community Development / community hubs etc		
	Positive impact: increased independence and access to equipment / early intervention and prevention support. Negative impact: Reducing current levels of investment to meet demand will lead to:		
	 introduction of waiting list for equipment 		
	- increased risk to vulnerable people		
	- increase hospital admissions (falls)		
Priority 4. Improve health and well-being	 lack of prevention offer will increase demand for other more intensive ASC services 		
	- increased complaints etc		
	 failure to meet statutory need 		
	 impact of raised demands on carers 		
	 more significant pressure in the system due to increase in dependency levels – loss of specialist knowledge/poor performance 		
Priority 5. Protect and promote our clean and green environment			
Well-run organisation - financial & governance; staff; customers			

Impacts on partners

Reduce service offer may impact on Housing, Health & Social care services. Impact on partners with Essex CC and partners in relation to ICES. Impact on partners who deliver range of assessment and support services

Impacts on customers / community and equality/diversity implications

Self assessment plans will promote choice and control, self serve. However, negative impact will include:

- introduction of waiting list for equipment once money is used
- increased risk to vulnerable people
- increase hospital admissions (falls)
- lack of prevention offer will increase demand for other more intensive ASC services
- increased complaints etc
- failure to meet statutory need
- impact of raised demands on carers
- more significant pressure in the system due to increase in dependency levels loss of specialist knowledge/poor performance

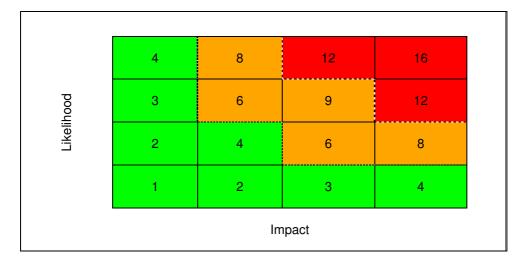

NO Date: Outstanding

Other impacts/implications		

Section 4: Risks and Mitigation

Delivery risks					
Risk Description	Likelihood	Impact	Rating	Management or Mitigating Action	
Risk that prevention agenda is upheld and decisions made not to reduce prevention offer				This will considered at DMT once business case written and risk considered	
Of ULO not engaging	2	2	4	Active engagement is ongoing and they are actively participating, project plan agreed and in place	

Service risks						
Risk Description	Likelihood	Impact	Rating	Management or Mitigating Action		
E.g. failure to maintain current levels of investment to meet demand will lead to:	2	2	4	Integrated Community Equipment Service project and shared service agreement with Essex County Council.		
introduction of waiting list for equipment	2	2	4	Risk management approach to ensure		
increased risk to vulnerable people	2	2	4	critical equipment provision prioritised		
increase hospital admissions (falls)	2	2	4	Self assessment to promote / improve access to equipment.		
lack of prevention offer will increase demand for other more intensive ASC services	2	1	3	Working with ULO to facilitate self assessment and equipment availability via local suppliers.		
increased complaints etc	2	2	4	Robust reviewing of what is critical and substantial and consultation with ULO and key stakeholders.		
failure to meet statutory need	2	1	4	Increase information and advice for self funding options		
raised demands on carers	2	2	4	Explore income generation opportunities (delivery of moving and handling training / approved assessor		
more significant pressure in the system due to increase in dependency levels – loss of specialist knowledge/poor performance	2	2	4	training / reablement training)		

For information on the ratings criteria guide, please see <u>\\Thurdata01\data\THURROCK\EXCHANGE\ROM</u>

Section 5: Assumptions, Dependencies & Exclusions

Timeframes Assumptions/ Dependencies/Exclusions	ULO engagement and consultation / service demands and priorities remain consistent / resource availability to maintain demand	
Benefits Assumptions/ Dependencies/Exclusions	Self Assessment is successful	
Costs Assumptions/ Dependencies/Exclusions	ICES project assumptions / existing activity mix between simple and complex aids remain / full potential of Self Ax uptake is reached	
Other/ General Assumptions/ Dependencies/Exclusions		

Section 6: Stakeholder Engagement Requirements

		Approximate timelines
Staff/Unions NB. Services should not be undertaken consultation with staff in isolation – all such activity should be co- ordinated through Jackie Hinchliffe		
Portfolio Holders/Members NB. Services should not be undertaken consultation with staff in isolation – all such activity should be co- ordinated through Directors Board	X	DMT report for July
Partners NB. Services should not be undertaken consultation with partners in isolation – all such activity should be co-ordinated through Directors Board	x	DMT report for July
Residents/Public NB. Services should not be undertaken consultation with staff in isolation – all such activity should be co- ordinated through Directors Board		DMT report for July
Other – please specify		

Section 7: Any other comments to support savings proposals
