

# HEALTH AND WELLBEING STRATEGY 2022 TO 2026

## Levelling the playing field in Thurrock

We want to hear your views on proposals to address health inequality

---

### **Thurrock Health and Wellbeing Strategy refresh**

We are seeking the views of Thurrock residents on proposals for Thurrock's Health and Wellbeing Strategy refresh. The full consultation can be found online at <https://consult.thurrock.gov.uk/>.

Based upon previous feedback, the Health and Wellbeing Strategy has been set out into six proposed areas of people's lives or domains. We are interested to hear your views on the proposed domains and priorities to support the refresh of the Strategy.

Domain 1 – Healthier for Longer (including Mental Health)

Domain 2 – Building Strong & Cohesive Communities

Domain 3 – People-Led Health and Care

Domain 4 – Opportunity for All

Domain 5 – Housing and the Environment

Domain 6 – Community Safety

#### **Domain 3 - Person Led Health and Care**

##### **Summary aim**

This domain focuses on continuing to remodel the health and care system to ensure solutions are local to where people live, joined up and allows the person to remain in control.

##### **Challenges**

- Organisations and departments do not always work together, even when people require a response from more than one of them.
- Existing resources are extremely stretched and staff capacity is limited.
- People are treated by their need or condition rather than improving their overall wellbeing.
- Current system is not flexible enough to reflect what matters in different communities across Thurrock.

##### **Priorities**

- Develop a high quality health and care system that is joined up and focuses on what is most important to the individual and their personal circumstances.
- Improved Primary Care that includes timely access to a range of professionals.

- Ensuring health and care workforce are multi-skilled and able to deliver a range of care needs to reduce the number of visits by health and care professionals.
- Working in partnership with communities to ensure that they are able to direct how resource is being used.

## **We welcome your feedback on the following questions**

**Q1. Do you agree with the aim of this domain?**

**Yes            No**

**Please provide information to explain your response**

**Q2. Do you agree with the challenges that have been identified?**

**Yes            No**

**Please provide information to explain your response**

**Q3. Are there any other challenges that should be considered?**

**Yes            No**

**Please provide information to explain your response**

**Q4. Do you agree with the priorities that have been proposed?**

**Yes            No**

**Please provide information to explain your response**

**Q5. Are there any other priorities that should be considered?**

**Yes**

**No**

**Please provide information to explain your response**

**Thank you for taking the time in completing this survey. We appreciate your feedback.**
