

Strategic/Corporate Risk & Opportunity Register January 2022

In Focus Report

The items are split between Risk & Opportunity and listed in Priority (Rating) and then Reference Number Order.

Risks In Focus

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner	
<p>The risk is that a combination of on-going pressures will result in lack of stability in the care market place resulting ultimately in market failure. Whilst the Council has given additional resource in the form of uplifts, they fall short of what is requested. The domiciliary care rate has been increased with the retender of the domiciliary care contract – this has resulted in greater stability, but difficulties remain. For example, issues concerning recruitment and retention. Hospital capacity is still an issue, but our ability to move people on more quickly has increased as a result of increased investment arising from additional adult social care monies – e.g. improved better care fund and social care precept. The additional funding is however limited which is likely to be an additional risk to stability. There is also a risk that additional capacity is used inappropriately as a backstop due to lack of capacity in domiciliary care. The recent and ongoing Covid-19 pandemic has highlighted the pressures on the adult social care market and the extent to which local authorities and the nation are dependent upon the market to provide care for the some of the Country’s most vulnerable people. Covid-19 has also led to a significant increase in demand for care which is pushing provider capacity further still. For providers, fees and rates are still an issue, compounded by the National Living Wage. Despite activity over the last 18 months, the risk of failure is still very real.</p>								Les Billingham

Comments

Adult Social Care has received additional funding in recent years – through a precept as part of the Council Tax and also through the Improved Better Care Fund. A significant proportion of this money has been used to stabilise the market place and deliver sustainability for care providers. This has included increasing the capacity of the contract and brokerage team to ensure contract compliance visits and monitoring to take place in a timely manner – reducing or aiding early identification of risks. The introduction of a Brokerage function has also meant that more realistic costs and fees are negotiated. In addition uplifts have been provided (as described in the risk description) to improve stability and domiciliary care has been retendered. Through the Better Care Fund, we have also been able to enhance capacity through investment in a Bridging Service and through enhancing existing services to ensure that people can come out of hospital when medically fit to do so – even when they are unable to return home. This has helped to reduce Delayed Transfers of Care and Waiting Lists.

The current Covid-19 Pandemic has significantly increased the strain on providers and the system as a whole. A number of residential care providers have had to close temporarily due to Covid-19 outbreaks and this has significantly reduced available capacity and also the ability of providers to fill vacancies. The situation is likely to continue throughout the pandemic. Staffing is a major issue, with increasing staff absence across both residential and domiciliary care sectors. This is having a direct impact on the number of people admitted to care homes and the number of hours available to provide care within the domiciliary care sector. This has led to hard decisions having to be made about how and where hours are distributed, which whilst risk assessed, is leading to some people having less care. This has been compounded by an increase in demand for care services during the period of the pandemic. Additional strain is also being placed on family members who are being asked to provide care to their loved ones where formal care capacity remains unavailable. Increased carer breakdown is a real risk. It is unclear as to whether the demand will be limited to the lifecycle of the pandemic or continue beyond its end.

The Council has provided additional funding to recognise the financial impact placed on providers. This included a 10% financial resilience payment which was made available to all providers for the first 16 weeks of the last financial year (20-21). The Council also enabled payments to providers to be monthly in advance to help with cash flow. The Government also made funding available to support care homes with infection control subject to the homes meeting certain conditions. Whether the vacancies will continue following Covid cannot be foretold. Additional Workforce Capacity Funding has been received to assist with current provider challenges – although difficulties recruiting staff are likely to remain, and the funding is limited to the end of March 2022.

At the same time as the pandemic, capacity issues across the system will be compounded by the usual winter pressures. Capacity depends upon the ability to be able to staff facilities and to cope with the additional demand placed on the system by Covid. Delayed Discharges remain low, which is a reflection of how well Thurrock works with its partners and providers, but the ability to maintain this position remains extremely tenuous and remains dependent upon community capacity and also the capacity of health providers.

Transformation work continues to progress to redesign a system that can respond to some of the current challenges – although some elements and benefits of the work will take time to be realised. This includes developing a new model of care for domiciliary care and a regional Workforce Development strategy focusing on external provision. At the beginning of 2018, the new domiciliary care contract started with providers now well established within the Borough, although one of the organisations who were successful in the tender process have failed to deliver the capacity contracted for; this is further evidence of the fragility of this market. Work has also taking place on alternative approaches to traditional domiciliary care, with two Wellbeing Teams now in place. Wellbeing Teams will enable us to identify the model required and will focus on enhancing Wellbeing and not just on meeting needs. It will also look at how to encourage people in to the care industry and to professionalise a caring role.

Despite the work taking place, the risk of market failure remains extremely high. The sheer number of challenges faced by the care market and the health and care system as a whole at the current time has led to the risk level being kept at 16. Risk to be refreshed in the next review

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place	Date Implemented
<ol style="list-style-type: none"> 1. New Domiciliary Care Contract 2. Uplifts for providers 3. Development of New Model of Care – Wellbeing Teams 4. Prevention agenda – e.g. Stronger Together, identification and management of Long Term Conditions, Enhanced Primary Care 5. Market Development Strategy 6. Market Diversification – e.g. through Micro Enterprises, Shared Lives 	<p>Implemented or on-going</p>

7. Better Care Together Health and Social Care Transformation Programme 8. Implementation and evaluation of Wellbeing Teams pilot 9. Review use of Better Care Fund for 2019-23. Programme for 2020/21 refreshed, submitted and approved 10. Review of Winter Planning (Refreshed as part of BCF review) 11. Market place diversification 12. Workforce Development Strategy – establishment and implementation of regional strategy 13. Additional Funding – Temporary resilience payments, arrangements to assist with cash flow and additional infection control allocated to providers 14. Government funding for providers to help with the impact of Covid 15. Implementation of the appropriate additional capacity in to the system to help maintain flow from Hospital to the Community (e.g. block booking, bridging facility, mutual aid agreement with Essex CC) 16. Review and risk assessment of existing domiciliary care packages to free up additional hours in order to meet increased Covid demand

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner	
The Council working with other agencies and the community have a critical role to play in the response to the crisis, shaping the transition and recovery for the borough, local residents and businesses. Failure to maintain plans and resources to deal with the situation will lead to uncoordinated, delayed or an ineffective response and recovery to the crisis and the Council not complying with the requirements of the Coronavirus and Civil Contingencies Acts and missed opportunities to support residents and businesses out of the pandemic								Directors Board

Comments

Recognised that this is not a short term crisis and there is no easy or quick solution to the situation as the position/challenges faced change regularly. Regular monitoring of the position, issues, planned response and recovery undertaken through gold/silver command structure. Member Oversight and Engagement Board meet weekly as of the end of October in order to monitor the data frequently and respond to the processes now in place since the introduction of the three tier local COVID alert levels. Ongoing regular reports from June 2020 to boards and committees with regard to the response, recovery and the implications of pandemic. The Council continues to strive to meet the challenge of keeping up with and responding to the latest position and government guidance. Focus is shifting to recovery and how we support residents and businesses as the economy is opened up more. The council and our partners are also looking at how we live with COVID and in the short and medium term. The lead up to Christmas and into the New Year saw a return to high levels of infection in the borough, some of the highest in the country for a few weeks, with associated pressure on local hospitals and other health and social care services. However a major incident was not declared and the council did not experience significant service disruption due to staff absence and forecast rating adjusted to 12. We are working closely with government and local partners to promote vaccinations and in particular booster vaccinations to those who have not yet taken up the offer. Risk and management action plan to be refreshed in the next review.

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place	Date Implemented
1. Command structure established and regular meetings of gold and silver (Tactical Coordination Group) commands to monitor and review position, issues, plans, response and recovery.	From Mar 2020
2. Essex Resilience Forum (ERF) multi-agency Strategic Coordinating Group established (includes Thurrock Council) and meeting regularly to coordinate the plans and response for Essex.	March 2020
3. Working from home arrangements introduced and all staff advised that they will be required to work from home except for those who have been identified as delivering front line services or are required to be in Council buildings.	19 March 2020
4. Work undertaken with educational establishments to provide provision for priority group of children and young people (e.g. children who have a parent who is a critical worker, vulnerable children and young people).	March 2020
5. Internet Coronavirus information hub established covering latest Government and Health Information; Thurrock Council Services; Financial Support; Government advice for businesses & services; Fraud, Scams & staying safe online and Bereavement support.	April 2020
6. Intranet Coronavirus information hub established covering latest Government Information and Advice; Working Arrangements; Self-Isolation & Absences; Looking After Your Health & Wellbeing; FAQs and How To Help Prevent The Spread Of The Virus.	April 2020
7. COVID19 Working arrangements policy created as a direct response to the pandemic to support working arrangements and to ensure critical Council services continue during these unprecedented times.	23 Apr 2020
8. Community support network established with partners to provide help for the shielded group and other residents in most need during the outbreak	April 2020
9. Government initiatives and funding support provided to the Council, Businesses and the Community, including:- Funding to the CCG to enable the Council to support the hospital discharge process; Funding for care homes to cover the costs of implementing infection control measures to reduce transmission; Funds to develop tailored outbreak control plans; Hardship funds for those receiving Council Tax Support; Funds to support the re-opening of High Streets; Funding to address rough sleeping; Upfront payment of Business Rate Grant; Deferral of business rate payments to government; Payment of Social Care Grant and further direct support to Businesses (e.g. Business rate relief; Grant support to Rural and Small Businesses, Hospitality and Leisure sectors; Financial support to those businesses with ongoing premises costs but are not on the rating list).	From March
10. Regular monitoring and reporting of financial and budget implications (e.g. expenditure, income, council tax, business rates, housing revenue account and capital programme) to Boards and Committees, including regular engagement with Ministry of Housing, Communities and Local Government (MHCLG).	From June
11. Development and implementation of guidance/risk assessments for Display Screen Equipment and Making the Workplace Safe.	June 2020
12. Commence transition recovery phase in line with government plans and guidance, including introduction of contract tracing scheme; opening of schools, town and shopping centres; improvements to cycling/walking corridors. Including establishment of Recovery Sub Groups of Tactical Coordination Group established to focus on recovery (e.g. People, Assets and H&S; Children & YP; Business, Finance & Economy and Transport)	From May 2020
13. Establishment of ERF level Recovery Co-ordinating Group	From 03 Jul 20
14. Development, release and ongoing review of Thurrock Covid-19 Outbreak Control Plan	From June 20
15. Health Protection Board established.	From 14 Jul 20

16. Public Health contact tracer team and surveillance cell established.	Mid Jul 2020
17. Member Oversight and Engagement Board monitoring of data and response/recovery situation following introduction of the three tier local COVID alert levels	October 2020
18. Continue to respond to latest situation and guidance, including national restrictions, testing and vaccination programmes in place, with weekly briefings to all members & twice weekly minimum public communications	Ongoing
Residual Risk Rating	Date: 01/07/2021 Impact: Critical (4) Likelihood: Very Likely (4) Rating: 16

FURTHER ACTION / FORECAST RISK / REVISED RESIDUAL RISK

Further Management or Mitigating Action	Implementation Date	Progress
19. Ongoing implementation of actions 1 - 18 above	From 01/07/2021	Ongoing
20. Government granted the council funding as part of the Community Vaccine Champions initiative to support increasing uptake of the vaccine.	From Jan 2022	An Action Plan is being developed in conjunction with Thurrock CVS to support a range of activities.
21. SCG has restarted whilst rates are still high. (see action 2)	December 2021	Ongoing subject to regular review of data
22. Administering of new business grants as they are announced. (Furtherance of action 9)	Throughout pandemic	Ongoing in line with government guidance and rules.
Forecast Risk Rating	Forecast Date: Refresh 31/03/2022 Impact: Substantial (3) Critical (4)	Likelihood: Likely (3) Rating: 9 12
Revised Residual Risk Rating	Date: 11/01/2022 Impact: Critical (4)	Likelihood: Very Likely (4) Rating: 16

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner	
Failure to manage the increases in demand and budget/resource pressures for Children’s Social Care could lead to a breakdown in the quality or performance of the service provided to vulnerable children and results in less favourable outcomes from inspection and damage to reputation of the service does meet the required standards								Janet Simon	
Link to Corporate Priority

Comments

This risk evaluates the impact of increased demand and resource pressures on children’s social care quality of service and provision. The pressures outlined throughout previous years remain acute. They include increased volumes, increased complexity and ongoing activity to review high cost placements. The implementation of the early help service model and the Thurrock multi-agency safeguarding hub (MASH) has been successful. The service continues to maximize the external investment and opportunities presented through the Troubled Families Programme and continuously measures impact of the MASH.

The service is demand led and cannot fail to respond to the needs of a child due to budget or resource constraints. Changes on a local, regional and national level can have a significant impact on the demand for services. War and international factors can result in an unplanned increase in the number of unaccompanied asylum seeking children or families with no recourse to public funds. Geographical movement of families across the Eastern Region and London can see a rise in families needing services, including large sibling groups. Areas for improvement were identified in the Ofsted (ILAC) 2019 and a Development Plan created to address this.

As a consequence of Covid19 since March 2020 there has been a significant impact on the way in which we deliver services within children’s social care. There has been an impact on the budget which is subject to continuous scrutiny. The Service has recently had a focused visit in June 2021 with a key focus on the local authority’s arrangements for the protection of vulnerable children from extra-familial risk. Recommendations for improvement identified and Development Plan updated to address the items. Further Ofsted ILACS Focussed visit completed Jun/Jul 2021, three recommendations for improvement identified and action plan updated to address items.

The level and complexity of some children and young people’s needs and the lack of available national resources (specialist placements) to meet those needs is driving up cost pressures. As the Council continues to improve practice regarding the identification and tackling of Child Exploitation there is an increase in demand for service provision

in terms of intervention; prevention and victim support. Current and new duties in terms of radicalization also place pressures on the service in terms of workforce capacity. Trends can be predicted based on previous levels of demand but these are subject to variance and there has been an increase in youth violence locally.

The pressures outlined above will not be alleviated in the short term and the risk rating will remain at the higher (red) level for the period covered. It is anticipated that there will be an increase in volumes of contacts into the service, including court delays regarding management of cases. The lack of available of foster placements and residential placements for children with complex needs is a national issue.

Regular reporting of CSC performance and plans to CS Overview and Scrutiny Committee. Risk and management action plan to be refreshed in the next review

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place								Date Implemented
1. Quality Assurance and Safeguarding functions are in place and robustly applied and a Development Board has been implemented and takes place on a monthly basis.								Ongoing
2. Trix Policies and Procedures have been introduced across Children's Social care. All procedures are subject to review and updating.								Ongoing
3. Joint delivery of the 'Early Offer of Help Strategy' and associated services are now embedded to meet the new the duty placed on Council's to coordinate an early offer of help to families who do not meet the criteria for social care services and ensure that the 'step down and step up' processes are robustly managed.								Ongoing
4. Internal quality assurance audits to evidence appropriate application of thresholds.								Ongoing
5. Ongoing data analysis to enable us to benchmark and target areas for improvement; complete redesign of KPI and trends analysis.								Ongoing
6. Ofsted inspections and action plans to address recommendations included in inspection report and subsequent visits or inspections are continually reviewed and updated.								Ongoing
Residual Risk Rating	Date:	26/07/2021	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12

FURTHER ACTION / FORECAST RISK / REVISED RESIDUAL RISK

Further Management or Mitigating Action			Implementation Date	Progress				
7. Ongoing implementation and/or application of actions 1 - 6 above as appropriate			From July 2021	1-4 Ongoing 5. Quarterly reporting of CSC key demand indicators, benchmarking data and key performance indicators to CS Overview & Scrutiny Committee. 6. Ofsted Focussed visit completed Jun/Jul 2021, three recommendations for improvement identified and action plan updated to address items.				
Forecast Risk Rating	Forecast Date:	Refresh 31/03/2022	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12
Revised Residual Risk Rating	Date:	21/01/2022	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner/	
Failure to ensure that all children and young people in need of help or protection are safeguarded and supported could result in them not achieving their full potential and increasing the risk of a child death or serious injury.								Janet Simon

Comments

The nature of the work in terms of safeguarding and supporting children at risk of harm means that this will always be a high risk area although through the application of the S.E.T (Southend, Essex & Thurrock) Child Protection procedures the department actively works to mitigate this risk and reduce the likelihood.

The risk of children and young people coming to harm cannot be completely eliminated and the risk level needs to remain high and ensure clear vigilance across the council and partner agencies. New and emerging risk factors will arise and there is always a potential for agencies 'not knowing, what they don't know' that needs to be guarded against.

Embedding the Multi Agency Safeguarding Hub and Early Offer of Help has supported earlier identification of risk through a multi-agency approach enabling the department to work to intervene at an earlier stage and reduce the risk of harm in some cases. The development and implementation of the Thurrock Local Safeguarding Children Partnership arrangements is further improving the inter-agency arrangements to safeguard and promote the welfare of children and young people living in Thurrock.

The impact for individual children and families, particularly in cases of child death is significant and whilst actions to reduce the likelihood are implemented the impact will remain as critical. There is also a critical impact score in terms of reputational damage if a child is not safeguarded or should a child death or serious injury occur.

The ongoing nature of risk in child protection and safeguarding is such that despite effective mitigation the acknowledgement of the risk needs to remain high and will not reduce. This is not to say that the risks are unmanageable but for effective management the gravity and complexity of the risk needs to be acknowledged.

Managing this risk places inherent pressures on the Children's Social Care budget as a demand led budget. Effective demand and resource management remain a priority for the service within an overriding context of keeping children safe.

Risk will remain constant throughout the period covered. The emergence of Covid19 resulted in a number of changes to service delivery. An Operational Procedures document during the Coronavirus outbreak was implemented for some time and is still being reviewed on a regular basis. This document ensures business continuity is maintained following appropriate risk assessments and government guidelines. Regular reporting of performance and progress against plans to CS Overview & Scrutiny Committee.

Risk and management action plan to be refreshed in the next review

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place								Date Implemented
1. Plan in line with Ofsted inspection in 2019 and will be updated following Focused Visit in June 2021								Nov 2019
2. Local Safeguarding Children's Partnership arrangements established, action plan in place and regularly monitored/reviewed.								July 2020
3. Application of the Southend, Essex & Thurrock Child Protection procedures								Ongoing
4. Quality assurance and safeguarding function of Children's Social Care.								Ongoing
5. Legal framework and court action								Ongoing
6. Continue to strengthen the Thurrock Multi Agency Safeguarding Hub and Early Offer of Help								Ongoing
7. Case Audits								Ongoing
8. Quality assurance framework								Ongoing
9. Continuous Development plan in line with Ofsted inspection 2019, and most recent Ofsted Inspection which is regularly reviewed in the monthly Development Reports								Apr 2020
10. Development of safeguarding arrangements to meet statutory requirements								From July 2020
11. Review of Thurrock Local Safeguarding Children Partnership arrangements.								From July 2020
12. Covid19 protocol implemented and is under constant review								From Apr 2020
Residual Risk Rating	Date:	26/07/2021	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12

FURTHER ACTION / FORECAST RISK / REVISED RESIDUAL RISK

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner	
The Council is a significant owner and user of operational property and ensuring that buildings comply with appropriate statutory, regulatory and corporate standards is a significant challenge. In addition to the direct consequences of any incident arising from buildings non-compliance, the Council could be faced with damage to its reputation, financial loss, and individual officers facing legal proceedings and in the worst case, the loss of lives of building users. It is therefore imperative that systems are in place to ensure compliance and manage these risks.								Sean Clark	
Link to Corporate Priority

Comments

Council properties (except for HRA and parks) moved to corporate function for repair, maintenance planning and budgets transferred. There has been a significant increase of number of properties moving to the Corporate Landlord Function which has resulted in a sharp increase in work streams. Condition and compliance surveys completed and loaded on Concerto database. The Estates Module is live and being populated with current data, training for officers is due to be undertaken in January 2022. This is a significant module which will assist with the management of leases and other property related matters and its implementation represents a significant step forward in the management strategy for the estates. It is unclear how this module will be impacted by the proposed change of IT systems to Microsoft 365. The Management module of Concerto is now live and although the implementation has been and remains labour intensive its use is generally a success. A draft Corporate Landlord Policy and a draft Corporate Landlord Procedure have been drafted, but can only be finalised once the resourcing requirements of the Corporate Property Team are agreed. The Facilities management function was brought back in house in April 2020 and Corporate Property Team restructure needs to be finalised to strengthen the capacity of the service. There is particular concern that vital roles are being undertaken by contract staff with no contingency or succession planning possible. In addition there is a lack of resource where posts remain vacant and where new resource is required to undertake a greater workload both within the Corporate Property and FM teams. A lack of resource in the FM Team with much increased work load particularly within the security team is a major risk with additional shifts having to be covered by on call agency. FM Team would be further impacted in event of COVID outbreak within the teams, security at Civic Offices and Wardens at Thameside would be covered by contractor. Mailroom and reprographics would be major impact but would need to reduce service initially and call on wider team for assistance. Added to this the considerable drain in the last quarter on the FM team in completing the declutter and reorganisation of CO2 there is significant pressure on officers time.

CO1 still remains closed due to electrical fault with a specialist repair scheduled for January 2022. This has had significant impact on the Council's ability to host member meetings and further impacted on officers' time and on two tenants who occupy parts of CO1. Due to the specialist nature of the work, limited availability of contractors there is significant risk the repair schedule could further be affected.

Proposals to refresh governance arrangements for property matters was submitted in March 2020, this included a revised TOR for Property Board, a new reporting structure and an itemised forward plan to support property management, governance and enhance visibility of Corporate Landlord matters. The constitution has been changed limiting requiring consent for all disposal from the Leader or Cabinet which has resulted in all disposals requiring an ED2 and increased workload. The continually evolving Covid-19 pandemic and the closure and the recommissioning of buildings were carefully planned to ensure health and safety hazards are managed thereby ensuring buildings were safe for re-occupation. Additional national lockdowns and changes to protocols result in the reversal of that process and add additional resource demand for decommissioning and re commissioning buildings and managing changing Covid Requirements, Additionally, the pandemic has necessitated social distancing measures and new working practices to protect staff, visitors and customers from the virus. Risk Assessments and re-occupation plans in accordance with PHE and government guidance are drafted for the Civic Centre and further guidance for other corporate buildings and satellite sites are to be developed and rolled out as appropriate. Due to restriction of staff within Civic Offices no fire marshal system in place, signing in/out procedure, risk if staff do not adhere to system in event of fire evacuation. The recent introduction of the sign in application has gone some way to mitigate this risk although take up and use by staff needs to be assessed.

The Corporate Property Team has been asked to undertake a wider ranging Asset Review with a view to identifying buildings that can be re-tasked or disposed of to generate capital receipts in order to support the overall Council budget. The asset review is progressing and this is a significant piece of work requiring substantial input from an already under resourced team and as it progresses it generates significantly more work once assets are identified to dispose of. A number of disposal have been successfully undertake with more agreed however one major proposed disposal has faltered which may result in the capital receipt target for this financial year not being met. The review of Corporate buildings is largely completed however additional works is still being undertaken in this area. Workloads generally remain an issue within the Estates and Assets teams which would be significant risk of being highly impacted by long term staff sickness or staff leaving post, this is further exacerbated by key functions within the assets team being covered by agency staff with no other internal options.

The current reduction in Capital spend is having a detrimental effect on the day to day management and maintenance of the Council's assets both Operational and Non-Operational as items requiring capital expenditure are potentially deteriorating which will result in additional future cost should the asset remain in the Council's ownership or potential Health and Safety issues if remedial work is not undertaken. This is particularly of importance with reference to the Thameside complex and Impulse Leisure properties where considerable planned and remedial maintenance works are required many of which fall into a health and safety category. In addition the condition of other Council Assets, in particular Coalhouse Fort have the potential to represent a significant liability in terms of repair and maintenance in the coming year. The continuing impact of Covid is having a detrimental effect on our Commercial occupiers and will likely impact on the potential expected rental income for this year and next with the number of void properties also likely to increase. Changes in EPC legislation in April 2023 require EPC ratings of E or above may affect the Council's property portfolio. Currently three of the Council's properties do not comply and there are an additional 207 properties yet to be assessed which will likely resulting in additional capacity required in officer's time and budgets to remedy.

The departmental restructure is progressing with all officers' 121 having been undertaken in line with the proposed time frame and a recruitment drive scheduled for Jan 2022. The impact on moral within the directorate must be noted with a number of staff being put at risk and significant changes proposed to the structure. Risk and Management action plan to be refreshed in the next review.

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place	Date Implemented
1. Corporate Health and Safety Committee established.	Ongoing
2. Asset Management Strategy drafted, consultation with officers undertaken and final draft awaiting DB approval	2018 & ongoing
3. Comprehensive Asbestos Register in place – review being undertaken to ensure accurate building information in place	2018 & ongoing
4. Property Procedure Rules (PPRs) prepared, consulted with officers and key members, awaiting DB approval. Additional Disposals Procedure prepared and submitted for approval in March 2020.	Ongoing
5. Scheme of Delegations reviewed, amended and implemented.	Ongoing Mar 2019 to Apr 2020

6. Restructure of Regeneration and Assets Service completed in September 2019 and Corporate Property Team transferred to Finance. Apleona FM staff TUPE'd in April 2020.	From Jun 2018			
7. Transfer of all phases and budgets completed	Jun 2018 to Jun 2020			
8. Compliance and condition surveys for Corporate Landlord Buildings completed April 2020 and new stock condition baseline established and entered into Concerto (new asset management database system), in June 2020.	From July 2018			
9. Regular updates on progress and compliance presented to Property Board	From June 2018			
10. Retain, Release, Reuse programme for assets implemented	2018 to Aug 2019			
11. Corporate Landlord Working Group developed and work undertaken until Aug 2019	Mar 2020			
12. New Planned & Preventative Maintenance (PPM) programme and compliance module developed and proposal submitted in March 2020 to refresh Property Board with key reporting milestones set against a clearly defined annual forward plan.	March 2020			
13. Closure of Corporate Buildings due to Covid-19 - Risk assessment, closure protocols & inspection regimes implemented and measures introduced for partial use of Civic Centre and Oliver Road Depot.	Dec 2020			
14. Development of plans in accordance with government guidance for the recommissioning of corporate buildings due to Covid19	From August 2020			
15. An urgent review and restructure of the FM team to cover capacity, skills, technical knowledge and capability constraints.	From Oct 2020			
16. Corporate Landlord Policy and Procedure approved following finalisation of resourcing and governance issue associated with PPRs and restructure approved.	From Oct 2020			
17. Finalisation of Concerto Estates Management Module and training for staff	From Dec 2020			
18. Review and restructure of the Corporate Property Team

Comments

The A13 corridor is a vital part of the transport network in Thurrock and the south Essex area, enabling the economy to grow through expanding businesses, new housing and more jobs.

Major economic growth

Thurrock and the south Essex area has seen major investment in recent years, including the opening of DP World London Gateway Port and Logistics facility, and the continued development of Lakeside retail and entertainment complex. This is part of a planned £20 billion investment in jobs, homes and infrastructure in Thurrock, including developments led by the private companies at Thames Enterprise Park, Lakeside Basin and the Port of Tilbury. A widened A13 will help support these developments, and also the significant investment planned for other parts of south Essex, including £272 million at Airport Business Park in Southend.

Excellent transport links: Thurrock and the South Essex area already has many excellent transport links with London, the rest of the UK and Europe, by road, river and air. The London Gateway Harbour Empowerment Order 2008 gave legal backing for further improvements to the surrounding road network, including widening the A13. This will be a benefit to traffic flow as currently around 77,000 vehicles each day use the A13 between the A128 (Orsett Cock roundabout) and the A1014 (The Manorway, Stanford-le-Hope).

Funding and partners: DP World London Gateway have contributed to the costs and the rest from government funding, directed through the South East Local Enterprise Partnership (SELEP), and Thurrock Council.

There has been an ongoing review and monitoring of the project and implementation of planned actions to manage identified issues, areas for improvement and potential risks. Good progress has been made in 2021 to date with an anticipated planned substantial completion date (all lanes open to traffic) of March 2022. All new bridges are in operation and the existing bridges have been demolished. The vast majority of earthworks and drainage is complete. The project budget remains a significant risk and is being closely monitored alongside the revised delivery timeline and the remaining project risks. Covid does remain a threat although this has reduced. Emerging risks include - Cold weather impacting road surface laying, production issues during road closure periods due to supply issues and utilities, particularly gas mains around the Orsett Cock roundabout. Update reported to Planning, Transport, Regeneration Overview & Scrutiny Committee, February 2022. Evaluate that Forecast Rating of 8 should be achieved by the Forecast Date of 31/03/2022 providing that all runs to plan and none of the identified emerging or new unexpected risks impact the programme.

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place								Date Implemented							
<ol style="list-style-type: none"> 1. Usual project management tools are being used including risk registers, change logs, approvals, clear systems and processes and ways of working etc. 2. Appointment of external auditors – Thurrock Council appointed expert transport infrastructure auditors to undertake a detailed review of the scheme. As a consequence there is a clear action plan of project improvements that has been substantially implemented 3. Strengthened the project team – Thurrock Council has brought on board an additional project management resource to focus on commercial issues and retained the services of the external auditor. Together, they will work their way through the outstanding compensation events and quotations. Aecom has also brought on board a senior quantity surveyor, risk manager and programme manager. 4. Programme challenge workshop – a report identifying ways in which time and cost can be saved. This is already identifying efficiency savings in particular with regard to costs. 5. Collaborative planning – the parties are undertaking collaborative planning to understand the inter-dependencies on the project and how they can be effectively managed to avoid impacts on critical path 6. Ways of working – co-location of contractors on site to ensure efficient agreement on issues which can then be quickly resolved 7. A monthly dashboard reporting mechanism to track blockers and identify ways of relieving them 8. Elements of parallel working which can ensure the workforce and plant and equipment is being utilised to maximum effect 9. Early warnings and improvements to communication to ensure efficiency 10. Full review and monitoring of cost and programme for the project 11. Full review and monitoring of impact of COVID-19 on the costs and programme for the project 12. Delivery of action of project improvements following commercial audit 13. Project construction costs re-baselined and revised target cost agreed 14. Targeted collaboration with TC and Keir communication teams has improved messaging and engagement with the public. 								November 2019

UNMANAGED / INHERENT RISK

Risk Description	Risk Owner								
<p>The Waste Strategy for Thurrock was adopted by Cabinet in November 2020. The strategy called for radical changes to the waste collection regime across the borough, including the introduction of a separate weekly food-waste collection and a move to alternate-weekly residual waste collections (AWC). As part of the move to AWC there is a requirement to procure a number of larger and specialised waste collection vehicles via procurement framework. The purchase of these vehicles is critical to the delivery of the new services and the prompt delivery of these vehicles is time-sensitive to ensure the service can commence on time in September-22 and contribute to the budget savings for the year.</p> <p>The consultations of a number of elements within the Waste Strategy for England including Extended Producer Responsibility (EPR), Consistent Collection and more source-separated recycling collections are still being debated and any potential impact on the strategy for Thurrock is not known in full at this time.</p> <p>These consultations may also have an impact on a number of waste-disposal contracts presently being negotiated for tender and some potentially challenging decisions may have to be made in order to have appropriate and suitable disposal arrangements in place, that have the potential to allow variations should the national strategy dictate.</p> <p>Key Risks are as follows: Timeline: The Strategy roll-out is planned to commence in September-22, and in advance of this roll-out a number of elements need to be in place in the lead up to the start-date. Vehicles are needed, the orders have been placed and a programme of phased deliveries established with the providers, over a period of December-21 to August-22, food-caddies will need sourcing, procuring and delivering prior to the commencement of the scheme, a complete overhaul of the existing waste collection-rounds using Route-Optimisation software is necessary with the new routes having been shared with Trade Unions and operational staff and a communications campaign designed and implemented to support the new scheme to ensure residents are fully aware of all changes and expectations. These elements will need to follow a planned schedule in order to be successful.</p> <p>Political Differences: While the Waste Strategy for Thurrock was approved by Cabinet, there have since been concerns raised by a number of elected members around the collection regime proposed within the Strategy. The Political arena has not changed over the last round of elections, however given the vigorous programme of annual elections within the borough there still remains a potential for a change in leadership that may or may not influence the decisions made as part of the Strategy, as while the overall aim is to improve recycling performance the route to this improvement is open to interpretation and individual political direction regardless of the earlier cross-party co-operations.</p> <p>Government Influences: The Central Government continue to consult around various elements of the Waste Strategy for England, some of which may still have direct financial impacts as they come to fruition. The decision to introduce a mandatory separate food-waste collection by 2023 has determined a number of critical decisions had to be made in order to meet this deadline that may now potentially risk not qualifying for government funding being made available due to said decisions already been taken. The Waste Strategy for Thurrock was written to encompass the current National Strategy, however this stance is fluid and there is a continued risk the Waste Strategy may not now fully embrace the statutory demands of National Policy and may still be subject to further discussion and adjustment.</p>	Julie Rogers

Comments
<p>The Waste Strategy for Thurrock has been adopted and preparations for its implementation have begun. National Strategy and Policy are still being consulted upon and decisions are still being finalised. This has the potential to leave the councils strategy for waste at risk of non-compliance in some areas, however as the Strategy is considered a living document, adjustments and amendments are anticipated. If the national strategy becomes such that decisions taken at the start of writing the local strategy may result in service-delivery choices requiring rethinking or changing. The risk is that such choices around vehicle-design etc. are difficult and potentially costly to change once made. Political influence via leadership changes continue to remain a possibility particularly given the program of local elections within the borough.</p> <p>External consultation has been sourced in order to sense-check the strategy against current national policy and a temporary pause placed on part of the new vehicle procurement process, however this remains time-critical and action may be required imminently if considered necessary from the sense-checking.</p>

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place	Date Implemented							
1. The Waste Strategy for Thurrock was formally approved in November 2020.	Nov 2020							
2. The procurement process for the new collection vehicles has been completed and the tender awarded to the successful supplier.	Completed							
3. Orders for the vehicles placed and delivery programme details are in discussion to finalise delivery dates that will ensure the new collection regime can commence as planned in September-22.	Orders placed							
Residual Risk Rating	Date:	01/07/2021	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12

FURTHER ACTION / FORECAST RISK / REVISED RESIDUAL RISK

Further Management or Mitigating Action	Implementation Date	Progress
4. Regular monitoring and consideration of consultations with regard to the Waste Strategy for England and reporting of outcomes and impacts.	From July 2021	4. The Waste Strategy for England have now begun consultation on the potential for mandatory further-separation of dry recyclable materials, which if such changes become law will impact on the planned collection methodology within the WS-4-T and potentially require adjustments to the collection regime, an increase to the numbers and/or types of bins/ receptacles provided to residents and the associated costs to the above.

5. Regular monitoring and reporting to Directors Board, Overview & Scrutiny and Cabinet as appropriate.	From July 2021	5. Any such changes as mentioned above will then need to be debated and approved by DB, ONS-C&G & Finance, before implementation
6. Food caddy procurement and delivery	From Jan-22 to Aug-22	6. Specifications have been agreed, procurement documentation is being drawn and is expected to be published in Jan-22 for tender. Deliveries will be timed to coincide with the delivery-schedule for the new food-waste vehicles. A planned schedule of delivery has been laid out, which will ensure food-caddies will be delivered in order of priority to ensure the new food-waste/recycling collection rounds can be implemented commencing Sept-22
7. Route optimisation exercise.	From Jul-21 to Jan-22	7. Data-cleansing is being carried out, a 'bin-store' container-audit has been implemented to confirm numbers/sizes etc. for input to the route-optimisation software.
8. Consultation & communication with stakeholders.	Ongoing to Sept 2022	8. Ongoing
9. Programme of phased delivery of vehicles	Dec 21 - Aug 22	9. Vehicle-deliveries start-date has been slipped from Dec-21 to Jan-22 by the manufacturer, although this is not expected to impact the scheme starting by Sept-22 at this time.
10. Roll out of Waste Strategy	Sept 2022	10. The roll-out may have to be adjusted to accommodate any changes to mandatory collections as referred to above.
11. Single Tipping location for all waste streams	Ongoing	11. The council have a number of waste disposal contracts, with many currently being retendered at this time, however all domestic waste collected from the kerbside collections and a number of waste streams from the HWRC are all disposed of at a single bulking/transfer location at Aherns Waste Transfer Station, near Oliver Close Depot. While Aherns have several alternate sites for TBC to utilise in the event of a major incident or sustained period of closure, these locations are all out of the Thurrock area. In such an event there would be a considerable impact on domestic collections where all TBC vehicles were required to use an alternate transfer location, with impacts on collection-times. Travelling and fuel costs, with a high probability of collections not being carried out where vehicles are losing time while travelling out of the Thurrock area.

Forecast Risk Rating	Forecast Date:	31/08/2022	Impact:	Critical (4)	Likelihood:	Unlikely (2)	Rating:	8
Revised Residual Risk Rating	Date:	04/01/2022	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner	
The Council is responsible for and provides a wide range of functions and services.								David Kleinberg	
There is a risk that the Authority experiences significant incidents of fraud, bribery, corruption or other economic crime as well as cases of money laundering. This can subsequently result in losses from the delivery of Council functions and services.

Comments

The Counter Fraud & Investigation service has an organisational-wide strategy and proactive work plan to monitor and manage the identified risks. A persistent training and education regime is in place, where experts from the service work with staff, contractors, Members and in the council's supply chain to identify and mitigate the risks, and increase awareness.

The council has current and effective policies on Counter Fraud, Bribery & Corruption and Money Laundering which are kept under constant review, with relevant updates being added or removed where appropriate. These policies acknowledge the threats and install an action plan in identified incidents including, civil & criminal litigation and redress to recover any identified losses. Any control weaknesses identified in investigations are rectified in collaboration with the affected services and Internal Audit through SMART Action Plans.

In the last year the council has come under pressure from COVID-19 and the situation has reduced the traditional work that CFI would complete during a year, however that has not meant the CFI team haven't assisted in the fight against fraud. Due to the pandemic the government announced a number of grants that were to be administered by local authorities, these were collectively known as Business Support Grants (BSG). The CFI team have worked closely with the Revenues team (those responsible for administering the grants) to complete pre and post assurance checks on all applications that were received. This preventative counter fraud work saw 61 grant applications investigated and stopped, saving over £600,000 of potential losses of public funds.

These risks have sat alongside the 'normal' fraud risks that the council faces every day, namely Single Person Discount fraud, Tenancy Fraud, Right To Buy fraud as well as other forms of fraud such as Procurement/Contract fraud. The fraud awareness programmes that were put to all staff will assist with identifying this risk and early intervention is always key to an organisation combating the risk it faces. These have continued and working alongside our alert system, staff are made aware of fraud trends and or known risks.

Covid 19 has also enabled an easier avenue for 'mandate fraud' which has been highlighted to staff, as we are not in the office spaces we once shared, communication is largely placed within the email systems. This can create the opportunity for criminals to compromise email accounts and facilitate a fraud. Where staff would normally be able to speak directly to a colleague, this now does not happen and must be brought into the risk faced by the council. CFI have been approached by various council who have fallen victim to £1m+ mandate frauds.

CFI has a programme of proactive work proposed to ensure the council's posture against fraud is robust and effective. Details of the proactive work programme are included in the management action plan for the risk.

The risk remains at 12, as new risks have emerged alongside old risks, the new risks have mitigated measures taken, however it is clear that those measures do not affect the 'attempts' we come across and thus it is felt that the risk to the council remains likely and critical. The council can ill afford a substantial loss of funds at this very critical time. Risk and management action plan to be refreshed in the next review.

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place								Date Implemented
1. Establishment & proactive enhancement of CFID								Nov 2014
2. Fraud and Corruption Policy established and maintained from 2014								From 2014

Revised Residual Risk Rating	Date:	24/01/2022	Impact:	Critical (4)	Likelihood:	Likely (3)	Rating:	12

UNMANAGED / INHERENT RISK

Risk Description	Risk Owner								
<p>Section 19(1B) - (1E) of the Planning and Compulsory Purchase Act 2004 sets out that all local planning authorities must identify their strategic priorities and have policies to address these in their development plan. The development plan for an area is made up of the combination of strategic policies (which address the priorities for an area) and non-strategic policies (which deal with more detailed matters).</p> <p>To be effective development plans need to be kept up to date. The National Planning Policy Framework states policies in the development plan, should be reviewed to assess whether they need updating at least once every 5 years, and should then be updated as necessary.</p> <p>The main document within our current development plan is the Core Strategy (as amended) which was adopted in 2015 although some policies within it date to 2011. Since then, work has begun on preparing a new Local Plan for the borough which will set out a range strategic and more detailed policies including policies about specific growth areas/sites within the borough. To support the production of this new Plan the Council have commissioned key evidence and undertaken several consultation activities but the complexity of the task and the limited available resource within the planning department has meant that progress on the Plan has been much slower than liked.</p> <p>In terms of next steps, we are hoping to undertake two more formal consultations under Regulation 18 and the one Regulation 19 draft Plan which would be submitted to the Secretary of State and then subject to an independent Examination in Public. It is anticipated that a new Local Plan will be adopted early 2025.</p> <p>The key risks which need to be managed in relation to the Thurrock Local Plan are:</p> <ul style="list-style-type: none"> • Uncertainty surrounding the alignment, design and phasing of the Lower Thames Crossing (LTC) which could have an adverse impact on the availability of land for future development. There is also a risk that any further delay in concluding the LTC DCO process will impact upon the Council's ability to submit its Local Plan for examination. • Impact of Covid-19 in terms of team resources (risk of illness) and the plan-making process specifically with regards to planned face to face consultation events. • Impact of the Census information releases and publication of datasets looking at post pandemic trends on our evidence base production. Unexpected changes could involve us having to re-commission evidence to ensure that the future and existing needs of local communities are appropriately addressed within the Plan. • Further changes to the national planning policy and guidance which could impact upon the content emerging policies and evidence causing delays to the plan making process as the Plan needs to be in conformity with national policies to be found sound. • Potential changes to guidelines about how a Plan should be prepared and its format could involve the Council having halt production of the Local Plan to transition over to the preparation of a different type of Local Plan. • An ongoing failure to recruit and retain experienced policy planners to support and expedite the preparation of the Local Plan. • Reduction in resource allocation towards the Local Plan project which could delay and/or halt the Plan's production. • The impact of local and national political considerations on the plan-making process. <p>Failure to prepare and maintain an up-to-date Plan will put the Council at risk of possible intervention by the Secretary of State and may lead to the loss of plan making powers, the Council's New Homes bonus and the ability to bid for national funding support for new infrastructure.</p>	<p>Julie Rogers Sean Nethercott</p>

Comments
<p>Failure to prepare and maintain an up-to-date Plan will put the Council at risk of possible intervention by the Secretary of State. Should this occur, the Council could lose the ability to plan for future development of Thurrock with its plan-making powers being taken away by the Secretary of State who has the option of directing another body to take over responsibility for preparing the Local Plan. Further sanctions could also come in the form of the loss of the Council's New Homes Bonus and a reduced ability to bid for national funding support for new infrastructure.</p> <p>A failure on the part of the Council to provide a rolling five-year land supply would also increase the possibility that landowners and developers would be able to obtain planning permission upon appeal to the Secretary of State for speculative, uncoordinated and piece-meal development in the Green Belt.</p> <p>Finally, the reputational damage and harm to the Council could be substantial as would the abortive costs involved in promoting a Local Plan which will be found unsound at examination.</p> <p>Despite the problems caused by the pandemic, significant progress has been made in moving the Plan forward with a particular focus being on the development of the Local Plan evidence base. Further progress has also been made in rolling out Local Plan Planning Performance Agreements with landowners and developers promoting sites and in building up towards the launch of the Community Design Charrettes which started in December 2021. A framework version of local Plan is under development with the aim to prepare a Draft Local Plan for Senior Officer and Member review in June/July 2022.</p> <p>Regular updates on the development of the Local Plan and next steps provided to the Local Development Plan Task Force (a cross party Members working group) throughout the process, A report on the Approach to the Local Plan was also presented to Regeneration Overview & Scrutiny Committee in October.</p> <p>Risk and management action plan to be refreshed in the next review</p>

EXISTING ACTION / RESIDUAL RISK

Management Action or Mitigation Already in Place	Date Implemented
<p>In order to manage and/or mitigate the risk of delay to the plan-making process the Council's Local Development Scheme sets out a range of measures designed to reduce the overall risk of the plan production being de-railed due to the impact of a number of internal or external influences. These include</p> <ol style="list-style-type: none"> 1. The adoption of a staged approach to the development of the local plan evidence base, and where appropriate, assessing a range of alternative scenarios (for example with/without LTC) to help better understand the options available for accommodating future development in a range of different locations. 2. The adoption of an evidence based approach to plan-making to ensure that both Members and the Local Community are made fully aware of the implications and impacts of adopting a range of different spatial options. 3. The setting up of Leaders and Members Briefing sessions to build up a better understanding of the issues to be addressed and cross party support for the emerging Local Plan. 	<p>February 2014 – ongoing</p>

4. Measures to both inform and manage land owner and developer expectations and knowledge of the plan-making process as an important first step in building up their confidence and support for the plan-making process and its ability to deliver positive outcomes for all the parties involved.	
5. Innovative measures designed to support wider public and stakeholder engagement in the plan-making process	
Other measures developed and rolled out to manage and/or mitigate the impact of the risk of the local plan process being frustrated include:	
6. Further and more proactive engagement with National Highways and other Government Departments to bring forward a scheme which promotes rather than hinders the potential for future economic and housing growth in Thurrock.	
7. Greater use and an expanded role for PPA's in funding the development of the LP evidence base and the recruitment of additional staff resources to assist the plan-making process.	
8. Increase the frequency and scope of Member and Community engagement in order to go beyond 'the numbers' and focus on the benefits that that further growth can bring to local communities.	
9. Improved terms and conditions to help recruit and retain experienced planners and greater use of PPAs to expand the capacity of the service to prepare the Local Plan.	
10. Development of new virtual public consultation platforms and approaches	From Dec 2020
11. Roll out of Thurrock Design Charrette process to commence in December 2020 and conclude June/July 2022 Mar 2022.	Dec 20 – Mar 22
12. Prepare draft Regulation 18 Local Plan for public consultation in summer November 2022, including commissioning of a wide range of technical studies and further work to inform to inform the production of the plan	July 20 – Nov 22
13. Ongoing roll out of Thurrock Local Plan Planning Performance Agreements (PPA) with site promoters to help fund the preparation of the Local Plan.	From Jul 2020
14. Build capacity with Ministry of Housing Communities and Local Government (MHCLG), Homes England, Department for Transport, Highways England to help ensure the early delivery of homes and supporting infrastructure	From Jul 2020
15. Subject to resources, the recruitment of additional professional and technical support to prepare the plan via direct appointments as full time staff, secondments from consultancies and short term fixed contracts with Public Practice.	From Jul 2020
16. Ongoing development of the technical evidence base to inform the production of a sound and legally compliant draft Local Plan for publication and consultation in 2023.	From Jul 2020
17. Development and implementation of Member Engagement Strategy	From July 2021
Residual Risk Rating	Date: 28/07/2021 Impact: Critical (4) Likelihood: Likely (3) Rating: 12

FURTHER ACTION / FORECAST RISK / REVISED RESIDUAL RISK

Further Management or Mitigating Action	Implementation Date	Progress
18. Ongoing application of items 1-17 above as appropriate	From Jul 2021	1. Ongoing 3&8. Ongoing including Members Briefings to build understanding & maintain cross-party support for the emerging Local Plan, Portfolio Briefings, Local Plan Taskforce meetings, informal cabinet meetings and talking to relevant Overview and Scrutiny committees 4&13. Ongoing engagement with land owner and developers via Local Plan Developer Forum and the Local Plan Planning Performance Agreement (PPA) process 6. Ongoing proactive engagement with NH and Gov depts on LTC scheme 9. Ongoing - working with other services in planning to improve employment terms and conditions to help recruit and retain experienced planners.

<p>19. Potential for significant changes to the planning system following the publication of the Planning White Paper – Planning for the Future.</p> <p>20. Reviewing the Local Development Scheme and publishing an update on our website.</p> <p>21. Development of high level communication strategy, including redesign of the Local Plan webpages</p> <p>22. Update the Council's Statement of Community Involvement and development of a new Local Plan Engagement Strategy</p>	<p>2021/22</p> <p>Feb-March 2022</p> <p>Feb – May 2022</p> <p>Feb – May 2022</p>	<p>10&11. Thurrock Design Charrette process commenced Dec 2020 via online consultation portal and followed by a series of Design Charrette Workshops across borough. Events for Corringham, E.Tilbury, Horndon, Orsett, S.Ockendon & Stanford le Hope completed. Virtual events for Bulphan & Chadwell scheduled for mid/late Feb 2022.</p> <p>12. Several pieces of evidence to inform the emerging draft Plan commissioned, draft framework document developed, technical evidence roadmap to be finalised and schedule for writing the Plan to be developed.</p> <p>14. Ongoing engagement with DLUH&C, Homes E, DfT and Highways E.</p> <p>15. Ongoing</p> <p>13, Ongoing</p> <p>16. Number of technical studies ongoing to build evidence base and will continue in 2022</p> <p>17. Member briefing workshops, along with Local Development Plan Taskforce sessions to inform/communicate plan-making process details. Work underway to prepare Member Engagement Strategy and to mirror the staged preparation of the Local Plan.</p> <p>19. The Government has paused the implementation of the planning reforms due to significant opposition from stakeholders, the general public and its own back bench MPs. Further announcements are awaited on the nature scope and timing of any future reforms.</p> <p>Work has commenced on preparing an updated Local Development Scheme. The scheme will need to be reviewed and approved by the Cabinet member for Regeneration, Strategic Planning and External Relationships before it can be published online.</p> <p>Work ongoing with communications team and update on web content commenced</p> <p>Work commenced.</p>

UNMANAGED / INHERENT RISK

Risk Description								Risk Owner	
<p>The growth programme in Thurrock continues to be one of the largest and most exciting opportunities in the country. Thurrock’s reputation as a place full of opportunity has helped attract a number of large scale projects including London Distribution Park at the Port of Tilbury, the continuing investment at DP World London Gateway, expansion of Lakeside, Purfleet Regeneration, Thames Freeport etc. As a direct result of the scale of the growth agenda in Thurrock the Council will be involved in three National Infrastructure Projects over the coming years.</p> <p>Managing these projects alongside the other key regeneration projects will place significant demands on the Council and ensuring the authority have capacity in key areas is important in maintaining momentum and maximising opportunity for the borough.</p> <p>Failure to increase capacity to meet current, future or competing demands could impact the successful delivery of the major schemes and projects.</p>								Sean Clark

Comments

The Thurrock growth programme crosses many disciplines within the Council. It requires significant programme management capacity from the Regeneration team to lead the programme alongside a joined up approach with other areas of the authority to ensure that relevant specialisms are brought in as required and programmes and strategies are complementary. Investment needs to be committed to project development stages before outputs and benefits are realised, significant levels of funding are committed at risk to prove feasibility and investment then needs to continue to secure the benefits from the initial funding. External funding is committed to numerous projects, whilst this

reduces the financial burden to the Council, compliance with funding agreements must be achieved to ensure the Council is not exposed financially via claw back mechanisms. Projects span numerous financial years and have to be able to respond to changing market, policy and financial conditions. Strong project and programme managers are essential to ensuring that delivery stays on track and investment secures value for money outputs. Increasing resource capacity in the team via Matrix has provided some additional support and approval has been received to secure 1 additional FTE. The project portfolio could benefit from significant external funding which will put additional pressure on the existing staff resource as more projects are developed. Momentum needs to be maintained in the ongoing restructure to improve working approaches and secure additional resource.

The Council has successfully secured significant amounts of Local Growth Fund, Getting Building Fund and other funds to directly deliver projects and programmes that benefit local residents and businesses directly or through investment infrastructure. This year there has already been opportunity to secure investment from the Community Renewal Fund. One project supported in Thurrock with a value of £100k now being implemented. In addition £150k secured through Welcome Back Fund. The Government has delayed announcements on launch of the Shared Prosperity Fund, Levelling Up Fund Round 2. The results of the Towns Fund applications submitted in early 2021 have been announced and have secured, in principal, around £40m investment in Thurrock subject to business cases and due diligence. The Government has designated Thames Freeport and full business case to be submitted 31 Jan 2022.

Comments

Backing Thurrock strategy adopted by Cabinet March 2021. The Action Plan includes a series of projects and initiatives that together seek to maximise the benefits to the local economy from growth in the borough. The Governance arrangements for the strategy are in place and delivery is now underway.

Available resource is being targeted at the most important priorities and projects in the programme highlighted in the action plan.

Delivery underway and good progress made but capacity issues mean that most important actions are being prioritised. Progress against key actions in line with the programme plan/management action plan for the opportunity. Forecast rating reduced to 12 to reflect delivery in year.

Opportunity and management action plan to be refreshed in the next review

UNMANAGED / INHERENT OPPORTUNITY

Opportunity Description								Opportunity Owner		
<p>A mix of approaches (e.g. service reviews, expenditure efficiencies, general income increases, managing demand, transformation, investment, etc.) have been adopted to deliver future balanced budgets and enable services to continue to be provided to meet the needs of residents.</p> <p>All the approaches are important to maintain balanced budgets for the life of the Medium Term Financial Strategy (MTFS) and it is recognised that investments continue to maintain significant income with the minimum of impact on service provision (e.g. in recent years the treasury function and activities have contributed significant income to support the budget position).</p> <p>The Investment Strategy has been paused but current investments continue to provide the Council with significant levels of income and contribute towards the delivery of wider Council services.</p>								Sean Clark

Comments

Investments identified as having the greater ability to make significant income with the minimum of impact on service provision. Investment Strategy established. Review undertaken and position reported to Council Feb 2021. Ongoing review, monitoring and presentation of investment briefings to Standards & Audit Committee (S&AC), Cabinet, Council and Corporate Overview and Scrutiny Committee (CO&SC) scheduled for 2021/22. Financial Update including position on the treasury and investment outturn projections presented to Cabinet September; Investment Briefing presented to S&AC September; MTFS Update & Budget Proposal reported to CO&SC November; Financial Update presented to Cabinet December, Capital Strategy, including Treasury Management Strategy and surplus for 2022/23 presented to CO&SC January and scheduled to be reported to Council February, General Fund Budget & MTFS reported to Cabinet and CO&SC January. Cross party Shadow Investment Committee established in 2020, meetings commenced in quarter 3 2020, options for the assurance, internal control and governance arrangements considered and discussion paper presented to CO&SC January 2022.

The Council's investment strategy has been paused for new activity following changes to central government lending conditions associated with PWLB borrowing. Existing investments continue to deliver significant income to support service delivery. The pause in new activity will reduce the overall projected level of forecast in the MTF5 and reflected in the associated budget reports.

EXISTING ACTION / RESIDUAL OPPORTUNITY

Management Action Already in Place								Date Implemented
1. Update on the Medium Term Financial Strategy and proposed investment approach (including principles) reported to and agreed by Cabinet 11 th Oct 2017.								Oct 2017
2. Follow up on the investment approach and the revisions required to the Treasury Management Strategy reported to and agreed by Council 25 th Oct 2017, including increases to the parameters for how much the council can borrow/invest and changes required to bolster the investment programme (e.g. capital cash investments/expenditure, acquisition or development of revenue generating assets, bringing more sites forward for development through Thurrock Regeneration Ltd).
