3. Learning and/or outcomes from upheld complaints:

Root cause analysis and learning from upheld complaints is detailed in the table below.

Complaint Number	Team	Complaint	Learning
Complaint 1	Disabled Children	Parent was concerned that the social worker did not listen to them when they raised concerns and feels that the relationship with them has broken down.	A change of social worker was put in place.
Complaint 2	Aftercare	Service user felt that they were not being fully supported. They requested financial support with obtaining a refrigerator for a new property they had moved into. They were left without a fridge whilst waiting for the new fridge to be delivered.	Going forward the service will ensure that in the event of a similar situation, a fridge will be sourced (loaned) until the new one is delivered.
Complaint 3	Fostering Team	Concerns that new beginnings are not meeting the basic needs of the service user, including access to sanitary items, cultural needs, and travel costs.	The service will aim to be clearer with the young person and the care provider from the outset of a placement, of what the young person's allowance will cover. When a contract is resubmitted, it will also be reviewed to account for cost of living increases. It will also be explicit

			in how the allowance should be spent. An additional clause will also be added to the specification to cover cultural and religious practices in order to ensure that the young person is given the appropriate support to participate in these activities, should they wish to do so.
Complaint 4	Aftercare	During a conversation about aftercare, the service user attempted to share their experiences around being in care but felt that they were not being listened to and that their experiences and concerns were not handled fairly, when they shared some of their negative experiences.	Work is being done to prepare a regular forum for care leavers. This forum will allow them to share their experiences and help shape what the service looks like and what support is provided to all service users.
Complaint 5	MASH	Parent requested an assessment to determine their child's care needs, however this was not actioned	Revised the expected response of MASH when parents are requesting an assessment of their care for a child with an additional support need. This change in expected response was then shared with the team.
