

Were you aware that Sound On were due to host a music festival the last weekend in April 2016 on the Aveley Sports Village grounds. This has now been postponed until the weekend of 13th and 14th August, 2016 and the circumstances have been changed. There will be approx 5,000 tickets to be sold and parking will be on site only. There will be 4 bars serving alcohol instead of the previous 1 only. The hours are 0900 til midnight and alcohol will be served from 11am-1030pm both days and the music will stop at 1030pm.

I oppose this festival, as this will have a negative impact for residents of Purfleet Road and Aveley for the following reasons:

Parking: Local residents will suffer from people attending the event parking in Purfleet Road and across Aveley to avoid any possible parking charges at the venue.

Traffic congestion: Residents will suffer from the huge number of people attending the venue, blocking local roads, both in travelling to and from, and by parking locally unlawfully.

Risk to public safety: Purfleet Road is a residential area with an already high traffic flow as a lakeside cut through for cars as well as articulated lorries unlawfully using this road. This event will further increase traffic and raises the risk of road accidents, especially with children.

Noise Pollution: The proximity of the event to Purfleet Road coupled with the timings means the noise caused will be significant and unacceptable to the peaceful enjoyment of residents by both the music itself and that caused by people going to and leaving the event.

Criminal activity and Public Disorder: The availability of alcohol and the nature of the event itself unacceptably increases the risk of alcohol and drug related disorder both at and in proximity to the event, ie within Purfleet Road and Aveley, with respect to noise and anti-social behaviour, violence and criminal damage to private and public property.
